# SCARLET INTERNATIONAL TRADING WLL

Scarlet International WLL is the official distributor and representative of a number of leading manufacturers in its industries. In addition to its partnership with Dupont - Molykote, a renowned producer of high-performance lubricants for extreme conditions, Scarlet International WLL also offers a comprehensive range of products from CRC, one of the world's largest manufacturers of MRO (Maintenance, Repair, and Operations) chemicals.

Moreover, the company collaborates with Loxeal and DowSil, two respected brands known for their exceptional industrial solutions. This strategic alliance ensures that the right selection of processes and lubricants is available, ultimately reducing maintenance costs, prolonging equipment lifespan, and simplifying operational processes for our valued clients.

## Our Vision & Mission

- Striving to meet the increasing and diversified demands of our customers
- Being the leader in MRO & Industrial market segments
- Providing quality products from reputed manufacturers
- Being preferred supplier of our customers, with our products exceeding their quality requirements
- Becoming a professional marketing partner for our principal suppliers to meet the objectives of sales, market information and customer service

## Innovating Maintenance Solutions

CRC began in a Pennsylvania garage in 1958 as Corrosion Reaction

Consultants with a single product: CRC Corrosion Inhibitor, a multi-purpose lubricant.

Today, CRC is a global supplier of specialty products and formulations, manufacturing over 1,300 items and developing specialized formulas to meet the unique needs of the Automotive, Marine, Heavy Truck, Hardware, Electrical, Industrial and Aviation markets.

# MOLYKOTE®

BY **DUPONT**

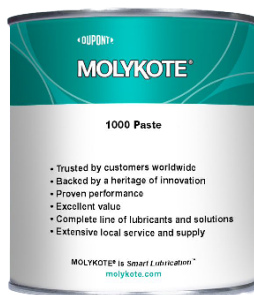

MOLYKOTE® is a trusted partner to help meet the toughest technical design and lubrication challenges. Continual investments in technology and product innovation enable us to meet current needs and anticipate future trends. Our full line of specialty lubricant products ensures we have a solution for nearly every situation. We continually invest in technology and product innovation to support customers' changing needs. Working side by side with our customers, the MOLYKOTE® Specialty

Lubricants brand is forging the future of lubrication with: A broad range of trusted, technology-driven specialty lubricant

chemistries – our Smart Lubrication™ solutions

Application expertise and technical support from internationally recognized lubrication experts

Anti-friction coating, compound, dispersion, grease, paste, and oil solutions to meet megatrend needs and provide sustainable and efficient solutions

**MOLYKOTE® 1000 Paste**

**MOLYKOTE® P37**

## Silicone & Heat Transfer Fluid

Dow heat transfer fluids have been helping systems achieve peak performance since 1929.

Heat transfer fluids make up about 1% of the total cost of a system, but they have the ability to ruin it completely if the fluid is low quality. Investing in quality fluids is investing in your system's future.

### DOWCAL 100E & 200E

Borate-Free Inhibited Glycol-based Low Temperature Thermal Fluids

### DOWCAL Fluids

Inhibited Glycol-based Heat Transfer Fluids

### DOWTHERM-J

For demanding low-temperature applications in liquid phase pressurized systems.

### DOWTHERM-Q

An alternative to hot oils in liquid phase heat transfer systems.

### DOWTHERM RP

High purity diaryl alkyl provides excellent performance in liquid phase heat transfer systems

### DOWTHERM-T

For use in non-pressurized systems, the fluid exhibits favorable physical properties

### DOWTHERM A

For systems employing either liquid phase or vapor phase heating.

### DOWTHERM G

To minimize problems resulting from accidental overheating

### SYLTHERM HF

Designed for use as a low temperature, liquid phase heat transfer medium.

### SYLTHERM XLT

Offers outstanding low temperature heat transfer and pumpability plus excellent stability.

### SYLTHERM 800

Highly stable, long lasting, silicone fluid designed for high temperature liquid phase operation.

## Offering Applicative Solutions for Industries.

Loxeal Engineering Adhesives is an Italian Company supplying, locally and worldwide, high quality adhesives and providing industrial solutions since the early Eighties.

Our commitment is certified since 1993, when Loxeal was one of the first Italian chemical Companies to achieve UNI EN ISO 9001 Certification, followed by UNI EN ISO 14001 in 2011. Many of our products are certified according to international standards and regulations.

### OTHER PRODUCTS

- Threadsealing Anaerobic Adhesives
- Threadlocking Anaerobic Adhesives
- Gasketing Adhesives
- Retaining Anaerobic Adhesives
- Cyanoacrylate Adhesives
- UV-Curable Adhesives
- Two-Part Epoxy Adhesives
- Single-Part Epoxy Adhesives
- Structural Acrylic Adhesives
- Surface Conditioners
- Complementary Products
- Dosing Systems

## The Best Rust Remover to Quickly Remove Rust is Evapo-Rust®

Evapo-Rust® Rust Remover will easily remove rust without scrubbing or sanding to give your treasures new life. Our rust inhibitor will keep it that way

CRC Evapo-Rust is a highly effective rust remover designed to eliminate rust and corrosion from various metal surfaces.

It is known for its non-toxic, safe, and environmentally friendly formula, making it suitable for indoor and outdoor use without emitting harmful fumes

**Heavy-Duty Rust Remover, 1 Gal**

**Heavy-Duty Rust Remover, 55 GAL**

- Removes rust quickly.
- Safe and eco-friendly.
- Easy to use at home.
- No harsh chemicals.
- Gentle on your hands.
- Lasts a long time.
- Good for rusty tools.
- No need for hard scrubbing.
- Helps with car fixes.
- Keeps metal looking nice.

## Bioremediating Parts Washing System

CRC SmartWasher is an innovative and environmentally friendly parts cleaning system designed to efficiently remove contaminants like oil and grease from various components and equipment. It stands out as a safer, cost-effective, and eco-conscious alternative to traditional solvent-based cleaning methods. At the core of CRC SmartWasher's operation is bioremediation technology. This technology uses a natural cleaning solution infused with beneficial microbes.
